SUMMARY

Windows Server Administrator with 5+ years managing enterprise server environments and virtualization platforms including VMware, Hyper-V, and Nutanix. Expertise in cloud operations with OCI and PCA, focusing on cost optimization and automation for secure operations. Proficient in Active Directory, DNS/DHCP, IAM, server provisioning, patching, and vulnerability remediation. Certified Google Associate Cloud Engineer with a strong track record in supporting high-availability global production environments.

SKILLS

• OCI and PCA • Disaster recovery drills • Service management practices
• Group policy management • Active Directory administration • DNS and DHCP configuration
• Identity and access management • ADFS and ADDS integration • FSMO role management
• Windows Server 2008–2022 expertise • Nutanix infrastructure management
• SCCM deployment and management • VM provisioning and VMware vCenter
• ESXi and vMotion operations • Hyper-V virtualization • Citrix Studio and Director administration
• vRA automation solutions • Cloud cost optimization strategies

WORK EXPERIENCE

Deputy Manager, Bharti Airtel **Dec 2023 - Present**

- Manage Windows Servers across VMware, Hyper-V, Nutanix, OCI, and PCA environments supporting business-critical applications.
- Provision and harden VMs, manage templates and snapshots.
- Administer AD, GPO, DNS/DHCP, IAM, ADFS, ADDS, and replication.
- Automated OCI VM scheduling to reduce non-production cloud costs.
- Optimized cloud infrastructure via right-sizing and autoscaling.
- Implemented OCI Key Management rotation for enhanced data security.
- Conduct root cause analysis and resolve VSS backup failures.
- Participate in DR drills ensuring business continuity.

Senior Software Engineer ,Capgemini Technology Solutions India Ltd **Dec 2020 – Dec 2023**

- Managed 8000+ physical and virtual servers across multiple domains.
- Provided L2 support for AD, DNS, DHCP, and Windows infrastructure.
- Administered VMware environments including VMs, ESXi hosts, and datastores.
- Supported Citrix VDI (Studio/Director) and SCCM deployments.
- Resolved monitoring alerts (CPU, RAM, OS issues).
- Handled ServiceNow incidents, change requests, and automation tasks.
- Delivered 24x7 global support across APAC, EMEA, and AMER regions

EDUCATION

BE in E&TC Government College of Engineering, **Nov 2020**

CERTIFICATION

Google Associate Cloud Engineer
